Hospet.

To
The Director of Public Health, Madras,
Through
Collector, Bellary District
Through
The Chairman, Municipal Council, Hospet.

Sir,

C.No.173/48 Dated 16-3-48.

Ref:- R.No.84761-1 Mal-47 dated 29-12-47 of the Director of Public Health, Madras.

Sub:- Antimalarial operations- Hospet Municipality- Extension of provisions of Chapter IX of the Madras Public Health Act 1939-Councils resolution - approval requested.

COLLECTOR'S OFFICE
19 MAR 1948.
BELLARY

This Municipality owing to its poor financial condition was not able to carry out effective antimalarial operations hitherto. Consequently the incidence of malaria was high.

After the advent of the Thungabhadra Project, the Government have started Antimalarial measures in the Project area including Hospet Municipality. From 18-9-45 antimalarial operations have been started in this town also.

Permanent measures such as construction of revetments to Basavanna Channel and Haya Channel have also been ordered by the Government.

On account of heavy construction works in Thungabhadra Project, Canal construction work and the location of Sugar Factory in this Town, there is a large influx of population especially labour from several parts of the province from vizagpatam District in the North to Ramnad District in the south. There may be many who are susceptable to malarial infection and some may be infective persons also to cause high incidence of malaria. Besides these constructions ~~and agricultural~~ there are many Building constructions and agricultural works which may create many breeding places for mosquitoes. All these conditions will be responsible for the high endemicity of malaria in the Town.

Owing to such important conditions prevailing in the Town antimalarial operations are carried in this town very vigorously to reduce the incidence of malaria. From 1-10-47 Antimalarial operations were further tightened by starting spraying against adult mosquitoes in the town leaving a central portion. From 1-2-48 spraying was carried out throughout the Town to give full benifit to the people of Hospet and reduce the incidence of malaria to the utmost possible. From the statistics submitted to the Director of Public Health it can be seen that the incidnee of malaria in this Town has been reduced considerably.

There are certain difficulties in the progress of the antimalarial operations. The public do not fully realise the usefulness of the antimalarial and antimosquito measures. In several breeding places there are mixed breeding of anophelene and culex variety of larva. It is therefore highly essential to extend Chapter IX of the Madras Public Health Act to this Municipality to give full relief to the people to live in a town free from malaria. If antimosquito measures are carried out, all varieties will be destroyed, the Town will be then free from malaria and also from the probable infection of Elephentasis.

P.T.O.

At present the entire expenditure for antimalrial measur are being met from the Provincial funds only

The Council in its Resolution No.281 Dt.27-2-48 have agreed for the extension of Chapter IX of the Public Health Act to this Municipality. Copy of the resolution is submitted seperately. Under the circumstances stated above I request that Chapter IX of the Public Health Act may be extended to this Municipality.

Commissioner,
Hospet Municipality.

Copy submitted direct to the Director of Public Health, Madras

Read:- R.No.6470/1-Malaria/47 Dated 29.12.47 of the Director of Public Health, Madras requesting the Council to agree to the extension of the provisions of Chapter 9 of Madras Public Health Act to Hospet Municipality for effective Mosquito Control

Note of the Commissioner:- The Council may approve the same as it would not involve the Municipality in any financial expenditure, on the other hand the people of the Municipality will be benifitted by the effective Anti-Mosquito Measures and the incidence of Malaria would be reduced completely.

R E S O L U T I O N:- No.281/27.2.48.

Agreed for the extension of Chapter IX of Public Health Act to this Municipality.

Sd. P.G. Setty,
